

Specials

BOC Edwards Vacuum Pump Equipment on Sale

Items in this special include:

BOC Edwards QDP40

Unit **\$7,500**

QDP40 & QMB250

Package **\$10,300**

This pricing is limited by the availability of pumps. The BOC Edwards QDP40 Drystar® vacuum pump features an enclosed water-cooled motor, which makes it highly suitable for applications in clean environments. The QDP40 operates at pressures ranging between atmospheric and ultimate vacuum without any fluid in the pumping chamber. This ensures a very clean pumping system without oil migrating back into the system. BOC Edwards blower packages can be configured in different combinations depending on need. For detailed specifications, please visit our website.
