B Installation

ASM 182 TD+ - ASM 192 T2D+ User's Manual
Detailed contents

Preliminary remarks

Throughout this User's Manual, you could find this type of message "*To access to level* 4 **C 40** ": it refers to a specific chapter of the User's Manual. Please read it for further information.

Precautions and unpacking

- Unpacking . . . . . B 10
- Handling the leak detector with a hoist and slings
- Precautionary measures for the leak detector installation
- Corrosive and dangerous gasses
- Storage
- Installation

Controlling the detector with the I/O interface

- Purpose of the I/O interface. . . . . B 20
- Location of the I/O interface
- Connect the jumper plug if the I/O interface is not used
- Prepare the connector wiring
- The controls (inputs)
- The signals (outputs)

Controlling the detector with a PC computer through the RS 232 interface

- Purpose of the PC computer interface . . . . . B 30
- Location of the RS 232 interface
- RS 232 interface instructions
- Which commands available for your leak detector

Connecting the detector directly to a printer through the RS 232 interface

- Purpose of the printer interface . . . . . B 40
- Location of the printer interface
- Communication mode description
- Connection to the printer
- Example of a configuration ticket

ASM 182 TD+ Connecting the detector to the installation via the hardware interface

- . . . . . B 50

GB 00965 - Edition 04 - February 02
