
Spare parts - Instructions of use

Replacement of parts and use of non genuine parts

Our products are designed to comply with current EC regulations and guarantee optimal operating conditions with maximum safety conditions for the user.

Any modification of the product made by the user is liable to lead to non-compliance with the regulations, or even to put into doubt the performance of the product and the user's safety.

Replacement of defective components by other parts than genuine parts, and use of these parts, jeopardize the initial safety conditions of the equipment. **In such case, the EC declaration of conformity becomes null: AVTF withdraws his responsibility for such operations.**

Besides, counterfeiting and unfair trading of parts are condemned under the civil and criminal laws.

AVTF urges the users not to take parts in the use of "imitations", in the misappropriation and pirating of intellectual property performed by some dishonest operators.

AVTF supplies maintenance components, spare parts or kits to perform the maintenance of its products (see chapter F).
